The Agency Table explores the balance between modern design and material innovation, pairing sculptural forms with an environmentally conscious approach. Inspired by post-modern and mid-century design influences, Agency combines bold geometry with a thoughtful mix of natural and upcycled materials.

The tabletop is crafted from an innovative composite material derived from repurposed coffee grounds, transforming a byproduct destined for landfill into a durable design feature. Lightweight, scratch-resistant, and visually distinctive, the surface offers everyday functionality while supporting a more sustainable approach to modern furniture design.

Qualified design trade professionals may be eligible to join our Trade Program and receive special pricing and access to our COM and customization solutions on all designs. Minimum order quantities may apply. To learn more or to find out if you qualify, email trade@gusdesigngroup.com

Agency Table

- A natural travertine base provides an organic contrast, celebrating the unique tones, textures, and characteristics inherent to stone. Connected with a powder-coated steel support, the combination of a lightweight top and substantial base creates a stable yet compact design suited for a range of residential, workplace, and hospitality environments.
- Available in two tabletop colours.
- Indoor use only.
- The lightweight and scratch resistant tabletop is crafted from an innovative composite material made with upcycled coffee grounds, transforming waste into a durable material while diverting it from landfills.
- Natural travertine stone base is finished with a clearcoat to highlight the natural beauty of the stone and acts as a stable foundation for the table.
- Travertine is a natural stone. Each piece is unique, showcasing its own veining, patterns, color variations, texture and surface pitting. Smaller pits are left untouched to preserve the stone's natural beauty. These natural characteristics give each table its own charm and make it a truly one-of-a-kind piece.
- Product images are a representation. Each travertine base will be one-of-a-kind and may vary significantly from what is shown.
- Do not use harsh chemicals to clean table. Address spills immediately with a soft cloth to prevent staining. Use a mild solution of PH neutral stone cleaner and warm water for base.
- Powder-coated steel support connects the tabletop to the base.
- Non-marking felt pads help protect floors.
- Assembly required.
