The Zoe Upholstery Series is designed for relaxed, modern living and features soft, sculptural details and generously scaled proportions that owe to 1970s Modernism. Flowing French seams highlight the shape of each cushion, creating a tailored silhouette that feels both refined and inviting. Supported by oversized wood legs and a kiln-dried, FSC-certified® solid wood frame, the design offers a grounded aesthetic with a sense of visual balance. A deep seat cushion wraps continuously up and over the armrest, inviting a full recline for those who want to truly lay back – while a thoughtful combination of eco-friendly synthetic-down fill and supportive foam provides the perfect balance of softness and support. Designed for casual, everyday living, Zoe adapts effortlessly to match your design aesthetic. Zoe uses a clean, ultra soft, long-strand fiber fill material that offers the comfort and feel of traditional waterfowl down. This material is created through a process that benefits the environment by diverting 2780 plastic bottles away from landfills, waterways and oceans for each Zoe Bi-Sectional we build.

Qualified design trade professionals may be eligible to join our Trade Program and receive special pricing and access to our COM and customization solutions on all designs. Minimum order quantities may apply. To learn more or to find out if you qualify, email trade@gusdesigngroup.com
